THE VILLA
DELLA VALLE

# ABOUT US

Our family moved to this beautiful property in 2021. We previously lived on a cul-de-sac which suited our lifestyle while the kids were young. We could walk to school and mingle with neighbours and friends. A typical suburban upbringing. While beginning the planning of our daughter's wedding we started looking at wedding venues. I fell in love with the idea of living and working in a vineyard and creating an idealistic space for people to have weddings.

My husband and I have a long history of building, designing, and creating. We have a long-term plan and vision for this property, and I hope you follow along to see the dream become reality.

We have created a space to host your wedding ceremony nestled right in the vines here at The Villa. The view from this spot is nothing short of spectacular and reminiscent of the rolling hills of Tuscany. We have multiple options for your reception space whether you prefer indoor, outdoor or a combination of both.

Inside The Villa, there is enough space to seat 70 guests with space to seat an additional 55 guests on the covered patio just outside the big glass arched doors for a total of 125 guest capacity.

We sincerely promise that when your day arrives your wedding will be beautiful, and we will work with you to create your vision for that day.

Now accepting bookings for the 2028 spring and summer season!
